Gentlemen:

We are transmitting the final revised Plan for the Prevention of Contaminant Dispersion (PPCD) and the public comment Responsiveness Summary (RS) which are due February 21, 1992. You will note that based on the comments received and subsequent reexamination of the potential effects from multiple-simultaneous intrusive activities, we have decreased the risk-based soil contamination thresholds by a factor of ten. We have also addressed CDH and EPA comments identified in the December 5, 1991 meeting.

Please contact Scott Grace of my staff at 966-7199 if you have any questions.

Sincerely,

David Simonson, Acting Assistant Manager
